An additional touch to the beauty of women

LPD LIP PLUMPER

Sea fern oil and hydroxytyrosol for a fuller and more generous beauty

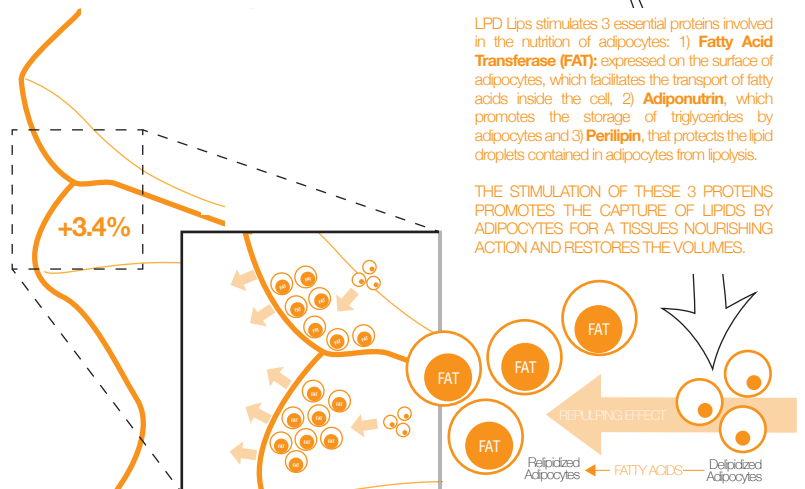

Liposomed Sea Fern Oil that stimulates
3 key proteins involved in adipocytes lipogenesis
Fills area around lips, plumping and smoothing effect
Also with organic siliceous which promotes skin elasticity

LPD Lips stimulates 3 essential proteins involved in the nutrition of adipocytes: 1) **Fatty Acid Transferase (FAT)**: expressed on the surface of adipocytes, which facilitates the transport of fatty acids inside the cell, 2) **Adiponutrin**, which promotes the storage of triglycerides by adipocytes and 3) **Perilipin**, that protects the lipid droplets contained in adipocytes from lipolysis.

THE STIMULATION OF THESE 3 PROTEINS PROMOTES THE CAPTURE OF LIPIDS BY ADIPOCYTES FOR A TISSUES NOURISHING ACTION AND RESTORES THE VOLUMES.
